

WHY HOME TO STAY?

If you are a family member responsible for the care of your elderly or sick parents, children or other relatives, you are faced with making important decisions about the comfort, safety and well-being of your loved ones, while balancing the financial constraints of their care.

If you are a Discharge Planner, Social Worker, Nurse or Administrator of a rehabilitation or Long-Term Care facility, family members and caregivers depend on you to assist in making the best post-care recommendations for their loved ones. Once released from your direct care, you will want to have the confidence and satisfaction of knowing that you and your team have placed each patient and their family in the best possible situation.

Whether you are a family member or a professional, Home to Stay is the best solution for you and your patient. We partner with you and assist in making the right decision for them when it's not safe for them to be at home alone. H2S offers round-the clock, live-in companionship 7 days a week, or supplemental hospice care to support the family through the final stages of their loved ones journey.

Home to Stay is different than most agencies. As an independently owned care provider, we can custom-fit our services to match a patient's needs specifically. There are no "cookie-cutter" packages to restrict care or charge you for services you may not need. You are not paying for franchise fees or royalties, or subject to corporate restrictions that slow down or compromise response time when you need immediate attention.

All of us at Home to Stay are committed to our Team Pledge to develop personal relationships with you and your family, care for your family as we care for our own, to serve all of your family members with courtesy and respect, provide the highest value of service for reasonable fees, to be there for you when you need us, take responsibility for our actions as a team, and always provide comfort and understanding for family members.

Family Business: H2S owners Andrew and Jen Dubler with Luke, Annika and Sam, and best friend, Chi-Chi.
